TTENTION IS INVITED TO THE NEW ORLEANS, obile and Texas Railroad Company. It is composed of

be built to complete the entire road.

It is believed that no other railroad corporation in the country has ever made so large an expenditure from its own means before offering any of its securities to the public.

The company now offer for sale the eight per cent mortage bonds upon the Louistana division of 25% mitter from New Orleans to the Sabine river. This will probably be the most valuable portion of the whole line, as it will be the only rail communication by which the enormous productions of Texas can reach the Southern metropolis.

So important is this road considered to Louistana that the State has made very liberal grants in aid of the enterprise, by direct donations, by endorsement of its bonds and by subscriptions to the atock of the company, amounting in all to over eight million dollars.

The bonds now offered are of two chases—First mortcage bonds, to the amount of \$12,500 per mile, and second mortage bonds, to an equal amount, both principal and interest guaranteed by the State of Louistana. The price of the two classes is the same, and subscribers can take their choles.

The bonds are only in the denomination of \$1,000 or \$200 cach, interest payable January and July, at the rate of eight per cent, currency, in New York, or seven per cent, gold, in London, at the option of the holder, at the time cach coupon is due. Bonds can be registered if desired.

The bonds are largely profitable, as well as entirely safe. One thousand dollars invested in these eight per cent bonds will give the ourchaser more than seventy-seven per cent greater annual interest than the same amount invested in the well continued to the more proposition of the modern of the modern of the company and the road and pamphleis containing map and full details of the enterprise can be obtained of the undersigned or any of the company's advertised agents.
